**1)** The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

**2)** Claims 1 and 30 are again rejected under 35 U.S.C. 102(e) as being anticipated by Schwartz (US 2003/0013857 A1) for the reasons of record and as specifically stated in paragraph **7)** of the November 01, 2005 Office action.

Applicant's arguments filed March 27, 2006 have been fully considered but they are not persuasive. Page 8 through the middle of page 10 of the Remarks provide a detailed assessment of what applicants consider the Schwartz et al patent to either describe or not to describe. However, these statements of what the reference describes or does not describe do not address the issues addressed by the examiner in paragraph **7)** of the November 01, 2005 Office (which also covers the analysis of paragraph **4)** of the March 07, 2005 Office action). In order to advance prosecution, applicants must address the issues raised by the examiner. Applicants are also encouraged to address any differences in the reaction conditions used in the claimed method of this application versus the reaction conditions used by Schwartz et al (aqueous versus organic).

**3) THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
